LIST OF CONTENTS

VOLUME 36

NUMBER 1

GERD GÄDE	1	The adipokinetic hormone/red pigment-concentrating hormone peptide family: structures, interrelationships and functions
JEFFREY H. SPRING	13	Endocrine regulation of diuresis in insects
COLIN H. WHEELER and GEOFFREY M. COAST	23	Assay and characterisation of diuretic factors in insects
TETSUHIKO SASAKI, TOSHIO AOKI, HIROAKI HAYASHI and HAJIME ISHIKAWA	35	Amino acid composition of the honeydew of symbiotic and aposymbiotic pea aphids *Acyrthosiphon pisum*
M. FAULDE, M. E. A. FUCHS and W. NAGL	41	Sex-, stadium- and stress-specific analysis of the salivary proteins of the German cockroach, *Blattella germanica* L.
ROBERT J. WEAVER and JOHN P. EDWARDS	51	The role of the corpora allata and associated nerves in the regulation of ovarian cycles in the oviparous cockroach *Periplaneta americana*
M. VAZ NUNES, N. A. P. KENNY and D. S. SAUNDERS	61	The photoperiodic clock in the blowfly *Calliphora vicina*
TSUKASA FUKUSHI	69	Colour discrimination from various shades of grey in the trained blowfly, *Lucilia cuprina*

NUMBER 2

GRACE JONES, TERRY HANZLIK, BRUCE D. HAMMOCK, DAVID A. SCHOOLEY, CHRISTINE A. MILLER, LESLIE W. TSAI and FRED C. BAKER	77	The juvenile hormone titre during the penultimate and ultimate larval stadia of *Trichoplusia ni*
TAKASHI ICHIMORI, REISHI OHTOMO, KOICHI SUZUKI and MORIHISA KURIHARA	85	Specific protein related to adult diapause in the leaf beetle, *Gastrophysa atrocyanea*
DOUGLAS B. MEIKLE, KATHY B. SHEEHAN, DEBRA M. PHILLIS and ROLLIN C. RICHMOND	93	Localization and longevity of seminal-fluid esterase 6 in mated female *Drosophila melanogaster*
A. V. WHITMORE and D. E. BIGNELL	103	Drinking behaviour in the cockroach *Periplaneta americana*: an automated method for the measurement of periodicity and uptake
DARCY A. REED-LARSEN and JOHN J. BROWN	111	Embryonic castration of the codling moth, *Cydia pomonella* by an endoparasitoid, *Ascogaster quadridentata*
JOSSELYNE BOULÉTREAU-MERLE	119	Genetic divergence in the kinetics of ovarian activity and brain control in virgin *Drosophila melanogaster* females
MARK A. BARNBY and JAMES A. KLOCKE	125	Effects of azadirachtin on levels of ecdysteroids and prothoracicotropic hormone-like activity in *Heliothis virescens* (Fabr.) larvae

A. Salzemann and K. Jaffe — 133 On the territorial behaviour of field colonies of the leaf-cutting ant *Atta laevigata* (Hymenoptera: Myrmicinae)

Michel Cusson, Jeremy N. McNeil and Stephen S. Tobe — 139 *In vitro* biosynthesis of juvenile hormone by corpora allata of *Pseudaletia unipuncta* virgin females as a function of age, environmental conditions, calling behaviour and ovarian development

NUMBER 3

i Editorial Announcement

Masahito T. Kimura — 147 Quantitative response to photoperiod during reproductive diapause in the *Drosophila auraria* species-complex

Janet M. Strong-Gunderson, Richard E. Lee Jr, Marcia R. Lee and Tammy J. Riga — 153 Ingestion of ice-nucleating active bacteria increases the supercooling point of the lady beetle *Hippodamia convergens*

P. B. Koch, G. Starnecker and D. Bückmann — 159 Interspecific effects of the pupal melanization reducing factor on pupal colouration in different lepidopteran families

Hans Briegel — 165 Metabolic relationship between female body size, reserves, and fecundity of *Aedes aegypti*

Daniel D. Ehresmann, James S. Buckner and George Graf — 173 Uric acid translocation from the fat body of *Manduca sexta* during the pupal–adult transformation: effects of 20-hydroxyecdysone

William Block, Paul M. Harrisson and Guy Vannier — 181 A comparative study of patterns of water loss from two Antarctic springtails (Insecta, Collembola)

Anna Rachinsky and Klaus Hartfelder — 189 Corpora allata activity, a prime regulating element for caste-specific juvenile hormone titre in honey bee larvae (*Apis mellifera carnica*)

David S. Saunders and Lawrence I. Gilbert — 195 Regulation of ovarian diapause in *Drosophila melanogaster* by photoperiod and moderately low temperature

S. P. Strnad and P. E. Dunn — 201 Host search behaviour of neonate western corn rootworm (*Diabrotica virgifera virgifera*)

S. J. Coulson and J. S. Bale — 207 Characterisation and limitations of the rapid cold-hardening response in the housefly *Musca domestica* (Diptera: Muscidae)

Richard Wall, P. A. Langley, J. Stevens and G. M. Clarke — 213 Age-determination in the old-world screw-worm fly *Chrysomya bezziana* by Pteridine fluorescence

NUMBER 4

James S. Buckner and Samuel M. Newman — 219 Uric acid storage in the epidermal cells of *Manduca sexta*: localization and movement during the larval–pupal transformation

Robin E. Davis, Thomas J. Kelly, Edward P. Masler, Howard W. Fescemyer, Belgaum S. Thyagaraja and Alexej B. Borkovec — 231 Hormonal control of vitellogenesis in the gypsy moth, *Lymantria dispar* (L.): suppression of haemolymph vitellogenin by the juvenile hormone analogue, methoprene

KARL H. JOPLIN and DAVID L. DENLINGER — 239 Developmental and tissue specific control of the heat shock induced 70 kDa related proteins in the flesh fly, *Sarcophaga crassipalpis*

ALAN F. SMITH and COBY SCHAL — 251 Corpus allatum control of sex pheromone production and calling in the female brown-banded cockroach, *Supella longipalpa* (F.) (Dictyoptera: Blattellidae)

V. M. BRESLER, E. A. BELYAEVA and M. G. MOZHAYEVA — 259 A comparative study on the system of active transport of organic acids in Malpighian tubules of insects

ANTHONY J. ZERA and STEPHEN S. TOBE — 271 Juvenile hormone-III biosynthesis in presumptive long-winged and short-winged *Gryllus rubens*: implications for the endocrine regulation of wing dimorphism

TAISAKU AMAKAWA, MAMIKO OZAKI and KAZUKO KAWATA — 281 Effects of cyclic GMP on the sugar taste receptor cell of the fly *Phormia regina*

KEVIN M. KELLY and MICHAEL I. MOTE — 287 Avoidance of monochromatic light by the cockroach *Periplaneta americana*

NUMBER 5

B. L. GUPTA — 293 *Editorial Commentary*—"VBW 90": a birthday present for the journal

V. B. WIGGLESWORTH — 307 The distribution, function and nature of "cuticulin" in the insect cuticle

DIANA E. WHEELER — 315 The developmental basis of worker polymorphism in fire ants

VYTAUTAS P. BINDOKAS and MICHAEL E. ADAMS — 323 Neuromuscular transmission in larval tobacco budworm, *Heliothis virescens* (F.) (Lepidoptera: Noctuidae)

FREDERICK R. PRETE — 335 Prey capture in mantids: the role of the prothoracic tibial flexion reflex

ANN ASCOLI-CHRISTENSEN, JAMES F. SUTCLIFFE and PAUL J. ALBERT — 339 Effect of adenine nucleotides on labellar chemoreceptive cells of the stable fly, *Stomoxys calcitrans*

ANGELA B. LANGE — 345 The presence of proctolin in the reproductive system of *Rhodnius prolixus*

M. FAULDE, M. E. A. FUCHS and W. NAGL — 353 Further characterization of a dispersion-inducing contact pheromone in the saliva of the German cockroach, *Blattella germanica* L. (Blattodea: Blattellidae)

HEATHER COOK and IAN ORCHARD — 361 Effects of 5,7-DHT upon feeding and serotonin content of various tissues in *Rhodnius prolixus*

ALAN F. SMITH and COBY SCHAL — 369 The physiological basis for the termination of pheromone-releasing behaviour in the female brown-banded cockroach, *Supella longipalpa* (F.) (Dictyoptera: Blattellidae)

NUMBER 6

CHIH-MING YIN, BAI-XIANG ZOU, SHU-XIA YI and JOHN G. STOFFOLANO JR — 375 Ecdysteroid activity during oögenesis in the black blowfly, *Phormia regina* (Meigen)

K. E. FOGG, J. H. ANSTEE and D. HYDE — 383 Effects of corpora cardiaca extract on intracellular second messenger levels in Malpighian tubules of *Locusta migratoria* L.

GÖRAN BIRGERSSON, JOHN A. BYERS, GUNNAR BERGSTRÖM and JAN LÖFQVIST — 391 Production of pheromone components, chalcogran and methyl (*E,Z*)-2,4-decadienoate, in the spruce engraver *Pityogenes chalcographus*

J. T. REDDY and MICHAEL LOCKE — 397 The size limited penetration of gold particles through insect basal laminae

MARIANNE SCHNUCH and KAI HANSEN — 409 Sugar sensitivity of a labellar salt receptor of the blowfly *Protophormia terraenovae*

LINDA PARTRIDGE and KEVIN FOWLER — 419 Non-mating costs of exposure to males in female *Drosophila melanogaster*

SHOGO MATSUMOTO, AKIHIRO KITAMURA, HIROMICHI NAGASAWA, HIROSHI KATAOKA, CHITOSE ORIKASA, TAKASHI MITSUI and AKINORI SUZUKI — 427 Functional diversity of a neurohormone produced by the suboesophageal ganglion: molecular identity of melanization and reddish colouration hormone and pheromone biosynthesis activating neuropeptide

DAVID N. BYRNE and WILLIAM B. MILLER — 433 Carbohydrate and amino acid composition of phloem sap and honeydew produced by *Bemisia tabaci*

HANS WILPS and GERD GÄDE — 441 Hormonal regulation of carbohydrate metabolism in the blowfly *Phormia terraenovae*

DAVID SCOTT and ROLLIN C. RICHMOND — 451 Sperm loss by remating *Drosophila melanogaster* females

NUMBER 7

YVES CARRIÈRE and JEREMY N. MCNEIL — 457 Effect of age and mating status on the mating behaviour and pheromone titre in alfalfa blotch leafminer females *Agromyza frontella* (Diptera: Agromyzidae)

THOMAS J. KELLY and THOMAS A. COUDRON — 463 Total and specific ecdysteroids in the haemolymph of *Trichoplusia ni* (Lepidoptera: Noctuidae) and its parasite, *Euplectrus plathypenae* (Hymenoptera: Eulophidae)

MARY BOWNES and GREGOR REID — 471 The role of the ovary and nutritional signals in the regulation of fat body yolk protein gene expression in *Drosophila melanogaster*

GEOFFREY M. COAST, G. MARK HOLMAN and RONALD J. NACHMAN — 481 The diuretic activity of a series of cephalomyotropic neuropeptides, the achetakinins, on isolated Malpighian tubules of the house cricket, *Acheta domesticus*

MIKA SAKAKIBARA and HAJIME FUGO — 489 *In vitro* eclosion hormone synthesis and secretion in the brain-retrocerebral complexes of the silkworm, *Bombyx mori*

J. M. GIEBULTOWICZ, A. K. RAINA and E. C. UEBEL — 495 Mated-like behaviour in senescent virgin females of gypsy moth, *Lymantria dispar*

J. G. H. ROEBROEK, M. VAN TJONGER and D. G. STAVENGA — 499 Temperature dependence of receptor potential and noise in fly (*Calliphora erythrocephala*) photoreceptor cells

RUNLIN MA, JOHN C. REESE, WILLIAM C. BLACK IV and PAULA BRAMEL-COX — 507 Detection of pectinesterase and polygalacturonase from salivary secretions of living greenbugs, *Schizaphis graminum* (Homoptera: Aphididae)

G. THEOPHILIDIS and M. D. BURNS — 513 The firing pattern of the locust (*Schistocerca gregaria americana*) mesothoracic femoral motor axons in resistance reflexes and during walking on a treadmill

R. M. RIZKI and T. M. RIZKI — 523 Encapsulation of parasitoid eggs in phenoloxidase-deficient mutants of *Drosophila melanogaster*

David K. Weaver and J. E. McFarlane — 531 The effect of larval density on growth and development of *Tenebrio molitor*

NUMBER 8

Bernard Fournier — 537 Functional cross-reactivities and transduction systems at the rectal level by antidiuretic peptides from cockroach and locust corpora cardiaca

Osvaldo Marinotti, Anthony A. James and José M. C. Ribeiro — 545 Diet and salivation in female *Aedes aegypti* mosquitoes

Cheng-Ping Chen and David L. Denlinger — 549 Activation of phosphorylase in response to cold and heat stress in the flesh fly, *Sarcophaga crassipalpis*

Christophe Gadenne, László Varjas and B. Mauchamp — 555 Effects of the non-steroidal ecdysone mimic, RH-5849, on diapause and non-diapause larvae of the European corn borer, *Ostrinia nubilalis* Hbn

Frederick R. Prete, Christine A. Klimek and S. P. Grossman — 561 The predatory strike of the praying mantis, *Tenodera aridifolia sinensis*

J. M. Giebultowicz, M. Feldlaufer and D. B. Gelman — 567 Role of ecdysteroids in the regulation of sperm release from the testis of the gypsy moth, *Lymantria dispar*

M. J. O'Donnell and S. Solweij — 573 A calcium-dependent action potential of long duration in the chorionated egg of the locust, *Locusta migratoria*

A. D. Lees — 585 Dual photoperiodic timers controlling sex and female morph determination in the pea aphid *Acyrthosiphon pisum*

Ian Orchard — 593 Tyrosine hydroxylase-like immunoreactivity in previously described catecholamine-containing neurones in the ventral nerve cord of *Rhodnius prolixus*

Robert R. Rojas, Joe E. Leggett and Roger A. Leopold — 601 Dormancy in southwestern cotton boll weevils: a comparative physiological study of *Anthonomus grandis* in wild and domesticated cotton bolls

M. L. Warnes — 607 The effect of host odour and carbon dioxide on the flight of tsetse flies (*Glossina* spp) in the laboratory

NUMBER 9

John B. Jenkins and Laurie Tompkins — 613 Effects of amiloride on taste responses of *Drosophila melanogaster* adults and larvae

A. Topazzini, M. Mazza and P. Pelosi — 619 Electroantennogram responses of five Lepidoptera species to 26 general odourants

Michael Barrett and Ian Orchard — 625 Serotonin-induced elevation of cAMP levels in the epidermis of the blood-sucking bug, *Rhodnius prolixus*

A. T. Marshall and R. W. Wood — 635 Ionic and osmotic regulation by larvae of the sheep blowfly *Lucilia cuprina*

A. Rafaeli, V. Soroker, B. Kamensky and A. K. Raina — 641 Action of pheromone biosynthesis activating neuropeptide on *in vitro* pheromone glands of *Heliothis armigera* females

T. H. Czapla, T. L. Hopkins and K. J. Kramer — 647 Cuticular strength and pigmentation of five strains of adult *Blattella germanica* (L.) during sclerotization: correlations with catecholamines, β-alanine and food deprivation

A. Mizoguchi, M. Hatta, S. Sato, H. Nagasawa, A. Suzuki and H. Ishizaki — 655 Developmental change of bombyxin content in the brain of the silkmoth *Bombyx mori*

Seppo Turunen — 665 Plant leaf lipids as fatty acid sources in two species of Lepidoptera

Frans Novak, Danny De Clerck, Herlinde Smet and Arnold De Loof — 673 Concentration of immunoreactive pregnenolone and estrone during metamorphosis of the flesh fly *Sarcophaga bullata*: influence of methoprene

E. S. Garcia, N. Luz, P. Azambuja and H. Rembold — 679 Azadirachtin depresses the release of prothoracicotropic hormone in *Rhodnius prolixus* larvae: evidence from head transplantations

Andrew M. Fox and Stuart E. Reynolds — 683 Quantification of *Manduca* adipokinetic hormone in nervous and endocrine tissue by a specific radioimmunoassay

A. M. Larocque and Jon G. Houseman — 691 Effect of ingested soybean, ovomucoid and corn protease inhibitors on digestive processes of the European corn borer, *Ostrinia nubilalis* (Lepidoptera: Pyralidae)

NUMBER 10

Marc E. Tischler, Min Wu, Paul Cook and Shirley Hodsden — 699 Ecdysteroids affect *in vivo* protein metabolism of the flight muscle of the tobacco hornworm (*Manduca sexta*)

Timothy J. Bradley, Jai K. Nayar and Judy W. Knight — 709 Selection of a strain of *Aedes aegypti* susceptible to *Dirofilaria immitis* and lacking intracellular concretions in the Malpighian tubules

Leam Sreng, Robert Moreau and Adrien Girardie — 719 Locust neuropeptides stimulating sex pheromone production in female European corn borer moth, *Ostrinia nubilalis*

Jacques Régnière — 727 Diapause termination and changes in thermal responses during postdiapause development in larvae of the spruce budworm, *Choristoneura fumiferana*

Seppo Turunen — 737 Absorption of choline, myo-inositol, and oleic acid in the midgut of *Pieris brassicae*: sectional differentiation and uptake into the haemolymph

W. M. Blaney and M. S. J. Simmonds — 743 A behavioural and electrophysiological study of the role of tarsal chemoreceptors in feeding by adults of *Spodoptera*, *Heliothis virescens* and *Helicoverpa armigera*

B. Hugo P. Minney, Angharad M. R. Gatehouse, Philip Dobie, Julie Dendy, Cesar Cardona and John A. Gatehouse — 757 Biochemical bases of seed resistance to *Zabrotes subfasciatus* (bean weevil) in *Phaseolus vulgaris* (common bean); a mechanism for arcelin toxicity

Randy E. Hunt and Kenneth F. Haynes — 769 Periodicity in the quantity and blend ratios of pheromone components in glands and volatile emissions of mutant and normal cabbage looper moths, *Trichoplusia ni*

KARL H. JOPLIN, GEORGE D. YOCUM and DAVID L. DENLINGER — 775 Diapause specific proteins expressed by the brain during the pupal diapause of the flesh fly, *Sarcophaga crassipalpis*

LAGE CERENIUS, PER-OVE THÖRNQVIST, ALAIN VEY, MATS W. JOHANSSON and KENNETH SÖDERHÄLL — 785 The effect of the fungal toxin destruxin E on isolated crayfish haemocytes

MASATSUGU HATAKEYAMA and KUGAO OISHI — 791 Induction of vitellogenin synthesis and maturation of transplanted previtellogenic eggs by juvenile hormone III in males of the sawfly, *Athalia rosae*

NUMBER 11

CHINCHANG YEH and MARC J. KLOWDEN — 799 Effects of male accessory gland substances on the preoviposition behaviour of *Aedes aegypti* mosquitoes

W. G. FRIEND and J. G. STOFFOLANO JR — 805 Feeding responses of the horsefly, *Tabanus nigrovittatus* (Diptera; Tabanidae) to purinergic phagostimulants

N. MILLER and M. J. LEHANE — 813 *In vitro* perfusion studies on the peritrophic membrane of the tsetse fly *Glossina morsitans morsitans* (Diptera, Glossinidae)

G. GRIES, W. W. BOWERS, R. GRIES, M. NOBLE and J. H. BORDEN — 819 Pheromone production by the pine engraver *Ips pini* following flight and starvation

KARL H. JOPLIN, GEORGE D. YOCUM and DAVID L. DENLINGER — 825 Cold shock elicits expression of heat shock proteins in the flesh fly, *Sarcophaga crassipalpis*

OSKAR HASZONITS and KARL CRAILSHEIM — 835 Uptake of L-leucine into isolated enterocytes of the honeybee (*Apis mellifera* L.) depending on season

GÜNTER A. SCHAUB, ANGELA SCHMIDT and JOHANNES ULLRICH — 843 The effect of moulting and of infection with *Blastocrithidia triatomae* (Trypanosomatidae) on the concentration of free amino acids in the haemolymph of the reduviid bug *Triatoma infestans*

KOICHI SUZUKI, TSUKASA MINAGAWA, TAKUYA KUMAGAI, SHIN-ICHI NAYA, YASUHISA ENDO, MINORU OSANAI and EIICHI KUWANO — 855 Control mechanism of diapause of the pharate first-instar larvae of the silkmoth *Antheraea yamamai*

L. PAEMEN, L. SCHOOFS and A. DE LOOF — 861 Presence of myotropic peptides in the male accessory reproductive glands of *Locusta migratoria*

G. A. PAK, A. VAN DALEN, N. KAASHOEK and H. DIJKMAN — 869 Host egg chorion structure influencing host suitability for the egg parasitoid *Trichogramma* Westwood

SUE NICOLSON and LEON ISAACSON — 877 Patch clamp of the basal membrane of beetle Malpighian tubules: direct demonstration of potassium channels

ARY A. HOFFMANN — 885 Acclimation for desiccation resistance in *Drosophila melanogaster* and the association between acclimation responses and genetic variation

NUMBER 12

TROND NORDTUG — 893 Dynamics and sensitivity of the pupillary system in the eyes of noctuid moths

P. A. Langley and R. Wall — 903 The implications of hunger in the tsetse fly, *Glossina pallidipes*, in relation to its availability to trapping techniques

K. Hasegawa and I. Shimizu — 909 GABAergic control of the release of diapause hormone from the suboesophageal ganglion of the silkworm, *Bombyx mori*

R. Crnjar, C.-M. Yin, J. G. Stoffolano Jr, I. Tomassini Barbarossa, A. Liscia and A. M. Angioy — 917 Influence of age on the electroantennogram response of the female blowfly (*Phormia regina*) (Diptera: Calliphoridae)

M. F. Bowen — 923 Post-diapause sensory responsiveness in *Culex pipiens*

Andrew F. Rowley and Mekdad Rahmet-Alla — 931 Prophenoloxidase activation in the blood of *Leucophaea maderae* by microbial products and different strains of *Bacillus cereus*

Jim Hardie — 939 The photoperiodic counter, quantitative day-length effects and scotophase timing in the vetch aphid *Megoura viciae*

Franz Bogner — 951 Sensory physiological investigation of carbon dioxide receptors in Lepidoptera

G. Cotton and J. H. Anstee — 959 A structural and biochemical study on the effects of methoprene on flight muscle development in *Locusta migratoria* L.
